NuGrainB3-0733

GRAIN SORGHUM

NEW High yielding, medium-early hybrid with large grain, a taller stature and large, stiff stalk for standability.

An excellent choice for both dryland production and irrigation. The semi-open panicle has excellent exertion and the large grain threshes very easily. Leaf quality is very good and shows excellent resistance to drought and diseases. Standability is very good because of a stiff stalk and its strong deep root system.

Hybrid Characteristics:

Grain Color: Bronze

Plant Height: 52-56"

Panicle Type: Semi-Open

APHIBLOK

Maturity

Maturity: Medium-Early

Days to 50% bloom: 62-64 days

Days to Harvest: 100-105 days

YIELD INFORMATION

Irrigated Bushels/Acre	125-152
Irrigated Pounds/Acre	7,000-8,500

Yield data information is based on Nufarm and university trials across 100+ locations in a 3-5 year period.

From the Field

Flexible, high yielding hybrid with excellent aphid tolerance, great standability and disease package with large grain size.
