

NEW

NUSEED EMU TF

Tough conditions have met their match

Nuseed Emu TF is an early-maturing TruFlex F1 hybrid that performs in low to medium rainfall zones and offers a late planting opportunity.

HYB
RR

KEY POINTS

- An early maturing hybrid suitable for shorter seasons and later planting
- A new option for growers in low to medium rainfall zones
- Delivers strong yields and good oil content
- Medium plant height with good harvestability.

NEW

ATR BLUEFIN

A hardy all-rounder for strong crop competition and disease resistance

ATR Bluefin delivers a strengthened disease package along with exceptional vigour and early biomass to provide robust establishment of your canola crop.

OP
TT

KEY POINTS

- Early maturing open pollinated TT variety
- Strengthened disease package compared to current OP TT varieties
- Fast establishment and good seedling vigour
- Compact plant type
- Competitive yield and oil performance for optimum harvest returns.
