

ATR BLUEFIN

A hardy all-rounder for strong crop competition and disease resistance

ATR Bluefin delivers a strengthened disease package along with exceptional vigour and early biomass to provide robust establishment of your canola crop.

ATR Bluefin continues our commitment to the OP TT segment, with an early maturing canola for Australian growers.

ATR Bluefin offers growers everything they are looking for in a TT canola variety. Toughened disease package, competitive yields and oil performance, delivering you optimum results at harvest.

ATR Bluefin has exceeded expectations in trials by demonstrating a compact plant type, that is fast establishing and features good seedling vigour when compared to other open-pollinated canola varieties.

KEY POINTS

- **Early maturing** open pollinated TT variety
- **Strengthened disease package** compared to current OP TT varieties
- Competitive yield and oil performance for **optimum harvest returns**
