

ATR BLUEFIN

A hardy all-rounder for strong crop competition and disease resistance

OP
TT

ATR Bluefin continues our commitment to the OP TT segment, with an early maturing canola for Australian growers.

ATR Bluefin delivers a strengthened disease package along with exceptional vigour and early biomass to provide robust establishment of your canola crop.

ATR Bluefin offers growers everything you are looking for in a TT canola variety. Toughened disease package, competitive yields and oil performance, delivering you optimum results at harvest.

ATR Bluefin has exceeded expectations in trials by demonstrating a compact plant type, that is fast establishing and features good seedling vigour when compared to other open-pollinated canola varieties.

An EPR (End Point Royalty) of \$5 per tonne (ex GST) applies to **ATR Bluefin**.

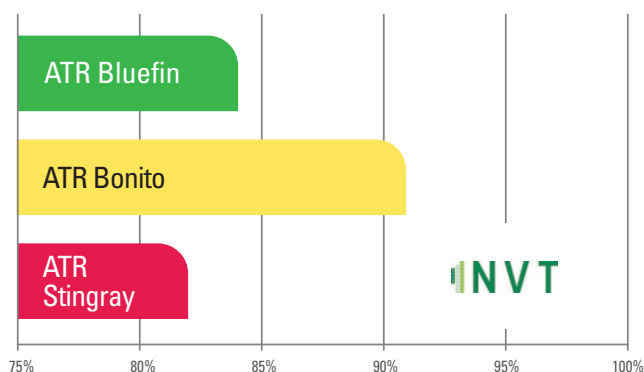

KEY POINTS
