

HYTTEC VELOCITY

Our earliest maturing hybrid TT with improved harvest management for farmers

HYB
TT

It just keeps getting better – HyTtec Velocity is an earlier alternative to other varieties without compromising on paddock performance.

As the newest and fastest member in our HyTtec family, **HyTtec Velocity** is a high performer in quick growing regions.

With a compact plant height and improved pod shatter tolerance built in, **HyTtec Velocity** offers an enhanced harvesting experience for farmers.

HyTtec Velocity is an early-maturing variety that exhibits impressive early vigour and a competitive yield and oil performance in trials, delivering growers a good return on their seed investment.

An EPR (End Point Royalty) of \$5 per tonne (ex GST) applies to **HyTtec Velocity**.

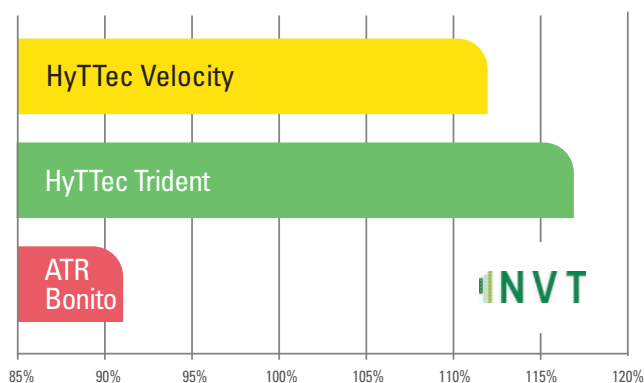

KEY POINTS

- **HyTtec Velocity** is an early maturing line and the fastest variety in the HyTtec family
- With its compact plant height and improved pod shatter genetics it is showing an improved harvestability over other lines
- It possesses good early vigour for strong establishment and increased weed competition
- **HyTtec Velocity** is suited to quick growing canola regions
- Available under an End Point Royalty
