

Emu TF

A TruFlex® hybrid canola variety that thrives in low to medium rainfall zones.

Emu TF is the leading early-series TruFlex® variety suited to low to medium rainfall zones.

Emu TF, an early-series TruFlex® hybrid, gives growers a new opportunity to achieve high yields and oil in mid-to-low rainfall zones.

Emu TF performs reliably, even in years when the end of the season presents challenging conditions.

If you're looking for an adaptable early-series variety, Emu TF is the solution.

Emu TF has excellent early vigour and biomass, enhancing early weed control.

Key Points

- An early-maturing hybrid suitable for shorter seasons and later planting.
- It provides an option for growers in low-to-medium rainfall zones.
- Delivers strong yields and good oil content.
- Medium plant height with good harvestability.
