

HyTTec® Trident

An early maturing hybrid TT canola that is the highest yielding in its class.

HyTTec® Trident is your high-performing, early-maturing canola with a premium disease package.

HyTTec® Trident is an early-maturing variety that has performed significantly better than current hybrid and open-pollinated TT varieties in both NVT and internal trials.

Canola growers looking for an early-maturing option can rely on

the performance of HyTTec® Trident to deliver superior paddock cleanup and strong returns at harvest.

Every HyTTec® Trident seed is backed by premier hybrid genetics and the full benefits of the TT herbicide system.

Key Points

- HyTTec® Trident significantly outperforms similar varieties across a range of yield environments.
- Especially strong in growing environments suited to early maturing canola.
- The ideal combination of early vigour and herbicide tolerance for superior paddock clean-up.
- Premium disease package, rated R for blackleg resistance.
