

SUNFLOWER HYBRID PERFORMANCE TRIALS

Elm Creek 2023

Oil Sunflower markets – include birdfood, oil crush and de-hull. Variety selection becomes more important when trying to capture de-hull markets. Choose varieties with better de-hull ratio, larger size and higher test weight. Environment will contribute greatly to final product. Plant population and environment will contribute greatly to the final product. Percent (%) oil content was unavailable at press time, visit www.mbcropalliance.ca for more details.

LSD (0.05)				253	-	2	4	1.7	
Planting Date	June 2, 2023								
Desiccation Date									
Harvest Date	October 20, 2023								

1 Physiological maturity for sunflowers is R9, where the bracts on the head are almost completely brown.
 2 Test weights are reported in lbs per Avery (Canadian) bushel.
 Refer to the MCA website at www.mbcropalliance.ca for more details.

All sunflowers varieties listed are susceptible to sclerotinia and sunflower rust strains present in Manitoba. Genetic resistance to verticillium wilt is rated as moderately susceptible to moderately resistant for all sunflower varieties presented. Plant population and environment will contribute greatly to the final product.
