

OIL - HIGH OLEIC N4H469 CL

Top choice of weed-infested sites.

N4H469 CL has exceptional agronomics with both genetic resistance to race H of orobanche and **Clearfield®** tolerance technology. This uniform, high oleic hybrid provides strong yields and top quality oil.

Key features:

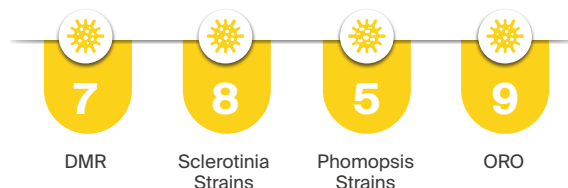

- Mid-maturity, high oleic type.
- Bred to have genetic resistance to race H of orobanche.
- Resistant to multiple races of downy mildew.
- Good tolerance for sclerotinia.
