

NHK12M010

NHK12M010 is a high oleic sunflower hybrid with mid-late maturity. This hybrid offers 'best in class' grain yield with good late season plant health, good oil content and top-line high oleic values. With high performance and an ability to resist multiple races of downy mildew, this hybrid is an excellent choice for growers.

- Mid-late maturity, high oleic type
- Outstanding yield potential and late season plant health
- Resistant to multiple races of downy mildew
- Under best agricultural practices, high oleic levels can reach up to 90%
