

OIL - HIGH OLEIC NHK12M010

Proven to deliver.

NHK12M010 provides 'best in class' grain yield with good late season plant health. This high performance, high oleic sunflower hybrid delivers both good oil content and top-line high oleic values. It is resistant to multiple races of downy mildew.

KEY FEATURES

- Mid-maturity, high oleic type.
- Outstanding yield potential and late season plant health.
- Resistant to multiple races of downy mildew.
- Under best agricultural practices, high oleic levels can reach up to 90%.
