

N4H470 CLP

SUNFLOWER

ALL-IN-ONE HYBRID WITH IMPROVED WEED CONTROL

This hybrid delivers an all around win on the farm. With excellent agronomics including solid stalks and roots, plus the added benefits of downy mildew resistance and improved weed control with the Clearfield Plus production system, growers will achieve solid yields and top-end oil content.

PRIMARY MARKET:

HIGH OLEIC CRUSH

SECONDARY MARKET OPTIONS:

BIRD FOOD

HERBICIDE TRAIT:

Clearfield® Plus

DOWNY MILDEW RESISTANT:

Yes

MATURITY:

Medium/Group 4

Key Features

High oleic, Beyond herbicide tolerant

Clearfield Plus provides improved weed control for higher yield potential

Excellent stalk and root strength

Good late season plant health

MANAGEMENT RECOMMENDATIONS

Recommended planting rate: 18,000-23,000 plants per acre

N4H470 CLP continues to have astonishing yield and oil performances year in and year out with many growers having 3-year oil averages at 50% or above, giving growers a high premium.
