

NUSEED OMEGA-3 CANOLA OFFERS THE FIRST LAND-BASED SOURCE OF DHA ESSENTIAL NUTRIENTS.

We are partnering with select canola growers to meet the increasing demands of the aquaculture and human nutrition markets for plant-based long-chain omega-3 sources.

Omega-3 canola is revolutionizing how plant-based solutions interact with other segments of the agriculture industry. For example, two acres of omega-3 canola will produce as much DHA as 10,000 one-kilogram fish. Nuseed Omega-3 Canola is processed into our

proprietary oil ingredients, Aquaterra® for aquafeed and Nutriterra® for human nutrition markets. Both products are more than just alternative sources of omega-3; they are uniquely rich in total DHA, vital building blocks for good nutrition.

INCREASE YOUR FARM'S PROFIT POTENTIAL

With an attractive contract offering, growers are supported throughout the process. Some key contract points Nuseed offers Omega-3 Canola growers:

- Basis contracts with flexible pricing options
- Local Nuseed agronomic and stewardship support
- Harvest flexibility for swathing or straight combining
- Incentives for on-farm storage if required
- Independent lab grading with samples taken during harvest, and at delivery
- Grower payment is within 30 days of pick up or delivery based on contract terms
- Local support for coordinating the delivery of planting seed, collecting samples and elevator delivery logistics
- Force majeure contract clause

Nuseed factors in farm location, business priorities, stewardship and production capabilities for our contract producers.

Interested in growing Nuseed Omega-3 Canola?

Go to nuseed.com/us/crop/canola/omega-3/ to fill out a contract assessment to see if you're a good fit for our program.
