FOOD GRADE SORGHUM

Ultra early food grade hybrid for later planting or double cropping.

This ultra early maturity hybrid produces a high density, high bushel weight, white grain. It has high tolerance to drought and will produce outstanding yields under dryland or limited irrigated conditions. The semi-open panicle has good exertion and is easy threshing. Leaf quality is very good and shows stay green and excellent resistance to drought. Standability is very good because of a stiff stalk and its strong deep root system.
