NuSilB1-0382 BMR

Ultra early stable performance, strong standability, proven yield potential BMR hybrid.

NuSilB1-0382 BMR is a dependable sorghum hybrid known for its consistent performance across diverse growing conditions. With strong standability, solid stress tolerance and competitive yield potential, NuSilB1-0382 BMR offers growers a reliable option for silage production. Its adaptability and balanced agronomic package make it well-suited for producers seeking a hybrid that performs steadily year after year.

Uses: Grazing | Feed | **Silage**

Hybrid Characteristics:

Grain Color: Bronze

Plant Height: 72-84"

Panicle Type: Grain

BMR: Yes

APHIBLOK

Maturity

Maturity: Ultra-Early

Days to 50% bloom: 70-73 days

Days to Harvest: 90-95 days

YIELD INFORMATION

Irrigated Tons/Acre	18-25

Yield data information is based on Nufarm and university trials across 100+ locations in a 3-5 year period.

From the Field

This hybrid offers planting flexibility due to its early maturity. Paired with the BMR trait, this hybrid produces highly palatable silage that will help maximize efficiency on farm and in the feed bunk year after year.
